

# Precautionary quota setting and bycatch limits

## Catches vs Total Allowable Catch (TACs)

### South Georgia

Year	CCAMLR TAC	South Georgia Quota Issued	Quota Caught
2019	2600	2170	2127
2018	2600	2170	1995
2017	2750	2200	2195
2016	2750	2200	2196
2015	2400	2200	2195
2014	2400	2200	2180
2013	2600	2100	2098
2012	2600	1850	1843
2011	3000	1800	1790
2010	3000	2800	2251

### Ross and Amundsen Sea

Year	CCAMLR TAC	Quota Caught
2019	4079	
2018	4222	3793
2017	3489	3405
2016	3489	3300
2015	3663	3457
2014	3434	3351
2013	3812	3639
2012	3812	3602
2011	3425	3429
2010	3425	3183

## Bycatch Limits

Limits on incidental bycatch in both the South Georgia and Ross Sea Fisheries are tightly monitored and controlled by both CCAMLR and the SG Government. Bottom longlining is a very targeted method of fishing that results in minimal bycatch:

### South Georgia

Year	Grenadier TAC	Grenadier Caught	Skates TAC	Skates Caught
2019	130	107	130	3
2018	130	107	130	4
2017	138	52	138	2
2016	138	64	138	2
2015	120	56	120	2
2014	120	61	120	4
2013	130	59	130	3
2012	130	54	130	2
2011	150	74	150	5
2010	150	70	150	7

### Ross and Amundsen Sea

Year	Grenadier TAC	Grenadier Caught	Skates TAC	Skates Caught
2018	517	168	167	9
2017	462	89	153	5
2016	529	142	193	7
2015	529	111	202	7
2014	492	136	202	2
2013	514	152	214	4
2012	514	172	214	2
2011	522	241	192	4
2010	522	169	192	8
