

Precautionary quota setting and bycatch limits

Catches vs Total Allowable Catch (TACs)

South Georgia

Year	CCAMLR TAC	South Georgia Quota Issued	Quota Caught
2021	2327	1920	1813
2020	2327	1920	1884
2019	2600	2170	2124
2018	2600	2170	1950
2017	2750	2200	2195
2016	2750	2200	2196
2015	2400	2200	2195
2014	2400	2200	2180
2013	2600	2100	2094
2012	2600	1850	1836
2011	3000	1800	1732
2010	3000	2800	2518

Ross and Amundsen Sea

TOA	Total Quota	Catch
2021	3944	3666
2020	4034	3615
2019	4157	3799
2018	3776	2950
2017	3489	3237
2016	3489	2914
2015	3663	2756
2014	3434	2613
2013	3812	3505
2012	3812	3621
2011	3425	3373
2010	3425	3182

Bycatch Limits

Limits on incidental bycatch in both the South Georgia and Ross Sea Fisheries are tightly monitored and controlled by both CCAMLR and the SG Government. Bottom longlining is a very targeted method of fishing that results in minimal bycatch:

South Georgia

Year	Grenadier TAC	Grenadier Caught	Skates TAC	Skates Caught
2021	116	97	116	3
2020	116	87	116	3
2019	130	107	130	3
2018	130	107	130	4
2017	138	54	138	3
2016	138	64	138	2
2015	120	56	120	2
2014	120	61	120	3
2013	130	59	130	2
2012	130	54	130	2
2011	150	74	150	4
2010	150	70	150	7

Ross and Amundsen Sea

By-catch	GRV catch limit	GRV catch	RAJ catch limit	RAJ catch
2021	613	141	197	10
2020	628	159	202	15
2019	645	168	207	9
2018	584	94	188	8
2017	529	87	174	4
2016	529	137	202	7
2015	529	101	202	5
2014	492	134	202	2
2013	514	150	214	4
2012	514	172	214	1
2011	522	241	192	4
2010	522	168	192	8
